INTRODUCTION

Overview of Competency-Based Training	i
Objectives	i
Audience	i
Sources	ii
Procedure for Trainees	ii

SECTION 1 - IDENTIFICATION

Organization	1.1
Objectives	1.1
Pipe	1.1
Properties of Pipe.....	1.3
Materials	1.3
Methods of Manufacture	1.3
Specifications of Materials	1.4
Review Questions - Codes and Standards	1.6
Dimensions of Pipe	1.8
Length	1.8
Pipe Size (NPS)	1.8
Wall Thickness - Schedule Number	1.9
Review Questions - Dimensions of Pipe	1.11
Pipe Fittings	1.12
Properties of Pipe Fittings	1.12
Materials	1.12
Dimensions	1.13
Shapes	1.13
Methods of Joining	1.13
Types of Threads	1.14
Types of Welds	1.15
Flanged Fittings.....	1.15
Variables in Properties of Pipe Fittings	1.15
Review Questions - Properties of Pipe Fittings	1.16
Functions of Pipe Fittings	1.17
Fittings to Connect Pipe in a Straight Line	1.17
Fittings to Change the Direction of a Pipeline	1.17
Fittings to Change the Diameter of a Pipeline	1.19
Fittings to Seal Off the Ends of a Pipe	1.20
Review Questions - Functions of Pipe Fittings	1.21
Flanges	1.23
Properties of Flanges	1.23
Materials	1.23
Dimensions	1.23
Flange Face Construction	1.23
Methods of Joining Flanges	1.25
Screwed Flanges	1.25
Welded Flanges	1.25
Specifications of Flanges	1.26
Review Questions - Properties of Flanges	1.27

Bolts for Joining Flanges	1.28
Bolt	1.28
Stud	1.28
Cap Screw	1.28
Specifications for Bolts	1.29
Review Questions- Bolts for Joining Flanges	1.30
Gaskets	1.31
Materials	1.31
Size and Shape	1.31
Pressure Rating	1.32
Review Questions - Gaskets	1.32
Orifice Plates	1.33
Function	1.33
Design	1.33
Size	1.33
Review Questions - Orifice Plates	1.34
Valves	1.35
Properties of Valves	1.35
Materials	1.35
Dimensions and End Connections	1.35
Service Ratings	1.35
Review Questions - Properties of Valves	1.37
Functions of Valves	1.37
Valves to Start and Stop Flow	1.37
Gate Valves	1.37
Plug Cock Valves	1.38
Valves to Regulate or Throttle Flow	1.39
Globe Valves	1.39
Variations of the Globe Valve	1.40
Valves to Regulate Direction of Flow	1.41
Check Valves	1.41
Variations of the Check Valve	1.42
Valves to Regulate Pressure	1.43
Relief Valves	1.43
Safety Valves	1.43
Review Questions - Functions of Valves	1.45
Pipe Hangers and Supports	1.46
Pipe Hangers	1.46
Plate and Beam Attachments	1.47
Middle Components	1.47
Pipe Clamps	1.47
Roller Type Hangers	1.48
Spring-Support Hangers	1.48
Pipe Supports	1.49
Guides and Anchors	1.49
Review Questions - Pipe Hangers and Supports	1.50
Demonstration/Skill Practice	1.52

SECTION 2 - LAYOUT

Organization	2.1
Objectives	2.1
Basic Concepts of Orthographic and Isometric Sketching	2.1
Orthographic Sketches	2.1
Isometric Sketches	2.4
Compass Points on Sketches	2.6
Scale	2.6
Review Questions - Basic Concepts	2.8
Symbolic Representation in Pipe Drawings	2.9
Symbols for Lines	2.9
Location	2.10
Circles	2.12
Symbols for Pipe Fittings	2.12
Type of End Connection	2.12
Type of Pipe Fitting	2.13
Symbols for Valves	2.15
Symbols for Pipe Supports	2.17
Symbols for Direction of Pipeline in Orthographic Drawings	2.18
Review Questions - Symbolic Representation	2.18
Reading Sketches	2.12
Reading Orthographic Sketches	2.21
Exercises	2.21
Reading Isometric Sketches	2.23
Exercises	2.24
Reading Symbols on Sketches	2.27
Exercises	2.27
Review Questions - Reading Sketches	2.29
Sketching Orthographic and Isometric Drawings	2.31
Essentials of a Good Sketch: Specific Steps	2.36
Essentials of a Good Sketch: General Rules	2.36
Review Questions - Sketching Orthographic and Isometric Drawings	2.37
Demonstration/Skill Practice	2.39

SECTION 3 - MEASUREMENT

Organization	3.1
Objectives	3.1
Principles of Measurement	3.1
Measuring Instruments	3.1
Location Dimensions and Centerlines	3.2
Locating the Center of Pipe and Pipe Fittings	3.2
Marking a Centerline on Pipes and Pipe Fittings	3.4
Pipe Measurements	3.4
Review Questions - Location Dimensions and Pipe Measurements	3.6
Mathematical Computations: Decimals and Fractions	3.9
Addition and Subtraction of Fractions	3.9
Exercises	3.9
Lowest common Denominators	3.10
Exercises	3.10
Decimal Equivalents of Fractions	3.10
Tables for Decimal - Fractional Equivalents	3.11
Exercises	3.11
Review Questions - Mathematical Computations	3.13

Fitting Allowance	3.14
Threaded Pipe	3.14
Fittings (except laterals)	3.14
Exercises	3.14
Laterals	3.17
Exercises	3.18
Review Questions - Threaded Pipe	3.19
Welded Pipe	3.20
Butt Welding Fittings	3.20
Exercises	3.20
Socket Welding Fittings	3.22
Elbows, Tees, and Crosses	3.22
Exercises	3.24
Laterals	3.24
Couplings	3.25
Reducers	3.25
Review Questions - Butt Welding and Socket Welding Fittings	3.26
Flanged Pipe	3.28
Threaded Flanges	3.28
Exercises	3.29
Slip-on Flanges	3.29
Exercises	3.29
Socket Welding Flanges	3.29
Exercises	3.30
Welding Neck Flanges	3.30
Exercises	3.31
Lap Joint Flanges	3.31
Exercises	3.32
Blind Flanges	3.32
Exercises	3.33
Review Questions - Flanged Pipe	3.34
Flanged Fittings	3.36
Exercises	3.38
Review Questions - Flanged Fittings	3.39
Spacing of Parallel Pipes	3.41
Exercises	3.42
Spacing of Pipe Hangers and Supports	3.43
Review Questions - Spacing of Pipe Hangers and Supports	3.44
Mathematical Computations: Right Angles and Square Roots	3.45
Definition of a Triangle	3.45
Review Questions - Right Triangles	3.46
Squares and Square Roots	3.46
Review Questions - Squares and Square Roots	3.49
Basic Trigonometry Concepts	3.50
Exercises	3.52
Review Questions - Basic Trigonometry Concepts	3.55

Offsets	3.57
Simple Offsets	3.57
Run, Set, and Travel	3.57
Calculations of Simple Offset Dimensions	3.58
Trigonometry Method	3.58
Exercises	3.59
Somley's Table Method	3.59
Exercises	3.60
Review Questions - Simple Offsets	3.64
Rolling Offsets	3.66
Run, Set, Roll, and Travel	3.66
Calculation of Rolling Offset Dimensions	3.66
Multipliers for Calculating Rolling Offsets Method	3.67
Simplified Method of Calculating Rolling Offsets	3.67
Review Questions - Rolling Offsets	3.68
Demonstration/Skill Practice	3.69

SECTION 4 - FABRICATION, ASSEMBLY, AND INSTALLATION

Organization	4.1
Objectives	4.1
Safety Precautions	4.1
Review Questions - Safety	4.3
Tools	4.4
Vices	4.4
Wrenches	4.5
Cutting Tools	4.8
Review Questions - Tools	4.11
Making Up a Threaded Joint	4.13
Thread Quality	4.13
Pipe Joint Compounds	4.15
Pipe Tape	4.15
Selection of Wrenches	4.15
Procedure for Cutting External Threads	4.16
Procedure in Making Up a Threaded Pipe Joint	
Review Questions - Making UP a Threaded Joint	4.16
Making Up a Flanged Joint	4.19
Fabrication of Gaskets	4.19
Installation of Flanges	4.25
Assembly of Tools and Equipment	4.25
Mechanical Advantage of Bolts	4.25
Flange Tightening Procedure	4.26
Installation of Blind Flanges	4.28
Installation of Orifice Plates	4.28
Review Questions - Making Up a Flanged Joint	4.30
Fitting Up for Welding	4.33
Butt Welding Fit-up	4.33
Critical Features of a Butt Weld	4.33
Tools (To Fit Up for Welding)	4.34
Procedure	4.35
Butt Welding for Branches	4.35
Characteristics of a Branch	4.35
Procedure	4.35

Socket Welding Fit-up: Procedure	4.36
Slip-on Flange Fit-up: Procedure	4.36
Review Questions - Fitting Up for Welding	4.38
Installation of Valves	4.39
Location of Valves	4.39
Position of Valves	4.40
Direction of Flow	4.41
Procedure	4.41
Special Considerations	4.42
For Threaded Valves	4.42
For Flanged Valves	4.42
For Welded Valves	4.42
Review Questions - Installation of Valves	4.43
Fabrication of Pipe Hangers and Supports	4.44
Exercises	4.53
Review Questions - Pipe Hangers	4.59
Allowance for Expansion in a Pipeline	4.61
Linear Expansion	4.61
Compensation for Expansion	4.62
Flexibility in Layout	4.62
Installation of Expansion Loops	4.62
Cold Springing	4.63
Cold Springing Techniques	4.63
Review Questions - Allowance for Expansion	
Demonstration/Skill Practice	4.67
Review Activities - Fabrication and Installation	4.68

SECTION 5 - PIPE BENDING

Organization	5.1
Objectives	5.1
Pipe Bending	5.1
Purpose of Bends	5.1
Review Questions - Purpose of Bends	5.3
Dimensions of Bends	5.4
Angle	5.4
Radius	5.4
Length	5.5
Developed Length	5.5
Determined Length	5.8
Gain	5.9
Setback	5.9
Springback	5.9
Tangent	5.9
Review Questions - Dimensions of Bents	
Layout of Bends	5.13
Review Questions - Layout of Bends	5.15

Methods of Bending	5.16
Fillers	5.16
Hydraulic Benders	5.16
Exercises	5.17
Hickey Benders	5.17
Exercises	5.17
Review Questions - Methods of Bending	5.20
Demonstration/Skill Practice	5.25
SECTION 6 - TESTING A PIPING SYSTEM	
Organization	6.1
Objectives	6.1
Testing a Piping System	6.1
Scheduling of Leak Tests	6.1
Test Pressure	6.1
Testing Medium	6.2
Water	6.2
Alternative Fluids to Water	6.2
Air	6.3
Types of Test Pumps	6.3
Location of Testing	6.3
Preparation for Testing	6.4
Duration of Test	6.4
Modified Testing	6.4
SECTION 7 - BREAKING INTO A PIPING SYSTEM	
Organization	7.1
Objectives	7.1
Breaking into a Piping System	7.1
Relief of the System of Stored Energy	7.1
Isolation of the Piping System	7.2
Preparation for Breaking the First Connection	7.2
Breaking of the First Connection	7.3
Completion of the Job After the First Connection is Broken	7.3
SECTION 8 - ABBREVIATIONS	8.1
SECTION 9 - GLOSSARY	9.1
