

Course Number 203 *Reaading A P&ID*

Contents

Getting Started

Before you begin...	1
When you finish...	1
Course Design	1

1. Introduction

Unit Objectives	2
What are P&IDs?	2
Why are P&IDs important?	3
Who uses P&IDs?	4

2. Information on a Typical P&ID

Unit Objectives	6
What kinds of information are on a P&ID?	6
The Title Block	7
The Main Drawing	9
Relative Size of Symbols	9
Relative Position of Symbols	10
Connecting Lines	11
Direction of Process Flow	12
Line Schedules	13
Line Schedule Number	14
Flowing FROM and TO	14
Pipe Description	15
Equipment Descriptions	16
Issue Descriptions	18
Notes	19
Zone Numbers	21

3. The Master Sheet

Unit Objectives	22
What is the Master sheet?	22
Line Designations	23
Instrument Designations	25
How are instrument line designations used?	25
Recognizing Instruments on a P&ID	27
Graphic Symbols	28
For Flow Diagrams	28
Equipment Symbols	30

4. Symbols

Unit Objectives	32
Vessels	32
Example of a Special Numbering System	32
Size and Shape	34
Associated Equipment	34
Nozzles	35
Storage Vessels	36
Reactor Vessels	37
Distillation Columns	38
Heat Exchangers	38

Contents

4. Symbols continued...

Valves	41
Valve Identification Numbers	41
How are valves controlled?	44
Manual Valves	44
Actuator Symbols for Valves	44
Pumps and Compressors	46
Pumps	46
Compressors	48
Identification Numbers	49
Heat Exchangers	50
Other Symbols	52
Fittings	52
Steam Traps	52

5. Instruments

Unit Objectives	53
Why are instruments and control loops important?	53
Instrument Identification	54
Identifying Instrument Function	55

6. Line Designations

Unit Objectives	56
Piping	56
Example Line Label	57
Tracing and Insulation	58
Instrument Lines	58

7. Tracing Process Flow

Unit Objectives	60
Identifying Where a Process Stream Begins	60
Tracing a Process Stream	62

8. Controlling Process Operations

Unit Objectives	64
Why are control loops important?	64
Describing Functions of Instruments in a Control Loop	66
Interlocks	68

9. Exercises for Review

Reducing Turbine and Condensate Collection Reactor	
---	--

Appendices

Appendix 1 - Line Designations	
Appendix 2 - Instrument Designations	
Appendix 3 - Graphic Symbols for Flow Diagrams	
Appendix 4 - Equipment Symbols	
Appendix 5 - Instruments and Instrument Line Symbols
